

Clear Waterways Organization (CWO)

May 18, 2014 REPORT: RESTROOMS CURRENTLY NOT OFFERED AT HIGH TRAFFIC RECREATIONAL AREAS

Current local issue: The Hammond's and Butterfly beaches' lack of facilities. CWO intends to contact Victoria Greene, of the Montecito Association, to garner the support from various entities for the placement of wood- sided port-a-potties. CWO proposes to help to keep the restrooms maintained in these popular areas in order to halt the use of the bushes, bluffs, sand, and parking areas to be used as a restroom by the public.

CWO, will provide updates and notification on this issue of adopting the use of facilities for proper waste disposal in our recreational areas.
